aanishsheeba@gmail.com | <https://www.linkedin.com/in/anish-sheeba-8a72a3398>

SUMMARY

Motivated Robotics and Artificial Intelligence undergraduate with hands-on experience in PLC systems, sensors, pneumatics, and automation projects. Passionate about robotics, mechatronics, and real-world hardware product development, with strong interest in prototype development, mechanical system improvement, and automation solutions. Quick learner with a practical problem-solving mindset and willingness to relocate to Delhi NCR/Sonipat for on-site internship opportunities.

KEY SKILLS

Robotics & Mechatronics | PLC Programming | Embedded Systems | Pneumatic Systems | Sensors & Actuators | ESP32 | Hardware Integration | Prototype Development | Automation Systems | AutoCAD

EDUCATION

Bachelor of Engineering – Robotics & Artificial Intelligence
Bangalore Institute Of Technology | CGPA: 8.5/10 | Expected Graduation: 2027
Class 12
Swargarani PU College | 82% | 2023
Class 10
Swargarani School | 85% | 2021

PROJECTS

Smart Parking System (PLC-Based)

- Developed an automated parking system using Delta PLC and sensor integration for vehicle entry, exit, and slot allocation.
- Designed ladder logic and real-time control workflows for automation efficiency.
- Performed hardware interfacing, troubleshooting, and testing of automation components.

Automated Waste Segregation System

- Built a prototype automation system using proximity sensors, pneumatic actuators, and mechanical sorting mechanisms using actuators.
- Integrated electro-pneumatic systems for automated material segregation and reduced manual intervention.
- Worked on sensor interfacing, actuator control, and hardware integration.

Veterinary Monitoring Wearable System

- Designed an IoT-based wearable prototype using ESP32 and multiple sensors for real-time monitoring.
- Performed embedded hardware integration, sensor interfacing, and continuous system testing.
- Improved system reliability through troubleshooting and optimization.

TOOLS & TECHNOLOGIES

Delta PLC | ESP32 | AutoCAD | Embedded systems | Pneumatic Components | Proximity Sensors | Embedded Hardware | Ladder Logic | IoT Systems

CERTIFICATIONS & TRAINING

- Autonomous Vehicle Workshop – Lane Detection & Navigation Fundamentals
- RoboAI Course – My Equation (Albert)
- AutoCAD Training – 2D, Isometric & 3D Drawing

LEADERSHIP & ACTIVITIES

- Content & Media Head – SoftTechie Club
- Volunteer Translator – Tamil/Kannada to English
- Mentored Class 10 students as a private tutor

LANGUAGES

English | Kannada | Tamil | Hindi
